

Behavioral Health Services

School-Based Behavioral Health

Independence Health System Behavioral Health operates outpatient therapy clinics in several school districts in Westmoreland County. Licensed therapists provide services year-round to students and their families including individual, group and family therapy.

Services are available for children in these districts K-12 and are provided in the school setting.

School districts where this program is currently available include:

Derry

Latrobe

Jeannette

Southmoreland

Ligonier

Hempfield

Mount Pleasant

Common diagnosis and issues:

Therapists are advanced clinicians with experience in assisting youth with adjustment concerns, ADHD, Autism Spectrum, Anxiety, Depression, PTSD, RAD and other mood and developmental disorders.

We provide a team-based approach to treatment, involving families, the school system, and other natural supports so that the child/adolescent is given the highest possible chances of success on their behavioral health journey.

For more information on our services, call 724-537-1650.
